# GEOCOMPLY

# PINPOINT

## SECURE ON-PROPERTY MOBILE SOLUTION

Create customized virtual boundaries and restrict user access to a room, floor, or zone of a gaming property within a few meters of accuracy.

Combining the power of iBeacons with GeoComply's robust geolocation technology, PinPoint was designed specifically for the gaming industry's unique requirements and offers the same real-time anti-spoofing and fraud benefits as our mobile and desktop Download solutions.

## LOCATION COMPLIANCE FOR UNIQUE ON-PROPERTY USE CASES

Our technology is designed to meet and exceed all applicable compliance requirements for unique on-property use cases, while bridging the gap between existing iGaming and landbased gaming regulations. PinPoint is highly scalable and can be custom tailored to meet a wide range of regulatory and business use cases, including ad-hoc projects under US state regulatory purview.

## PRODUCT FEATURES

- Geofence a room, floor, or custom zone

- Create custom iBeacon networks for small-scale geofencing

- Ideal for mobile sports, on-property gaming, bring-your-own-device systems, etc.

- Bundled into your client application

## COMPLIANCE

- Approved vendor in NV, NJ, DE, MS and WV

- Independently tested by GLI, BMM, and Cartesian

## BOOST PROFITS

- Average **18%** player increase with multi-tiered databases & failover
