

# On-property, geofencing solution

Create virtual boundaries to expand your business while complying with regulations.

PinPoint combines the power of its proprietary beacon technology with GeoComply's industry-leading location fraud technology.

### Expand your sportsbook

Allow users to place bets on their mobile apps anywhere within the facility.

### Geofence any indoor requirements

Create virtual boundaries to limit where consumers can or cannot play.

### Improve the customer experience

Allow users to verify their identity on-property using their mobile devices.

## Key Features

### Custom geofences

Our PinPoint beacons support large or small-scale geofencing use cases.

### Beacon Manager

Our Beacon Manager portal integrates all PinPoint beacons for continuous monitoring and status notifications.

### Location fraud detection

Leverage location-spoofing and fraud prevention features from the GeoComply Core SDKs.

### Always updated

Over-the-air software updates ensure PinPoint Beacons always have the latest security and compliance features.

### Client portal

Make better decisions with dashboards and reporting available at your fingertips. Every available data point is tracked and monitored.

### Proven reliability

PinPoint beacons enforce compliance at hundreds of different locations in multiple states with proven reliability.

“

The important thing about the mobile app is that you're not limited to having a dedicated space for the sportsbook, it allows you to turn your entire property into your sportsbook.

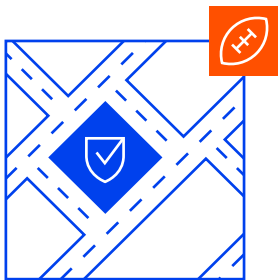

– Neal Atkinson, Director of Table Games

“

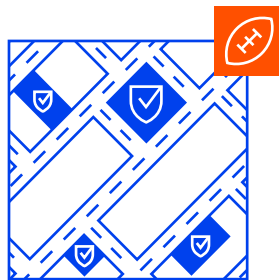

I've had a lot of feedback that people have been betting from their hotel rooms, the center bar over on the other side of Silverstar with the other restaurants we had.... It makes it easy to use anywhere on the property.”

– Chris Hopwood, Sportsbook Director

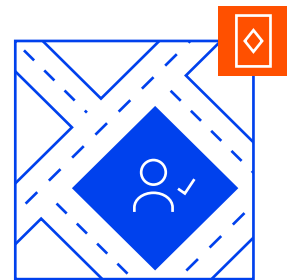

On-property compliance solution for customized use cases.

An entire resort turned into a sportsbook

Sports betting only in a physical location

On-site registration enforcement

“

PinPoint's back office allows us to see where our players were and what they were actually betting on.

– Cassandra Grady, IT Sr. Business Systems Analyst

“

Our growth in revenue year over year has outpaced the state five to one.

– Neal Atkinson, Director of Table Games
